

AHMED SAMIR

Full-Stack / Front-End Developer — Technical Co-Founder at Meem Langs

Egypt, Qena-Nagaa Hamadi

☎ +201146615338 ✉ ahmedmijdo2@gmail.com [in Ahmed Samir](#) [🌐 Mijdo](#)

Summary

Motivated Full-Stack Developer with a strong foundation in modern web technologies and hands-on experience building full-stack applications for both personal and client projects. Proficient in Next.js, React, TypeScript, Tailwind CSS, Prisma ORM, and MongoDB. Experienced in integrating secure authentication protocols using Clerk and managing data through database management tools like Prisma Studio and MongoDB Compass. Self-driven and consistent, currently serving as Technical Co-Founder at Meem Langs, an AI-powered language learning platform, combining hands-on development with product and community leadership.

Projects

Full-Stack Todo Application

July 2026

Built with Next.js, TypeScript, Tailwind CSS, Prisma, MongoDB, Clerk

[GitHub](#) | [Live Demo](#)

- Developed a feature-rich, full-stack Todo application leveraging Next.js App Router, Server Components, and Server Actions for optimized performance and smooth data mutations.
- Implemented secure user authentication and route protection using **Clerk**, ensuring robust user session handling and data privacy.
- Designed and modeled scalable database schemas using **Prisma ORM** backed by a **MongoDB** database.
- Utilized **Prisma Studio** and **MongoDB Compass** for efficient database visualization, record inspection, and schema management during development.
- Styled a modern, clean, and fully responsive user interface with **Tailwind CSS** for a seamless experience across all devices.
- Maintained high code quality and strict type safety throughout the codebase using TypeScript, with version control managed via Git and GitHub.

Real Estate Listings Platform

July 2026

Freelance Client Project — Built with Next.js, MongoDB, Prisma

[GitHub](#)

- Delivered as a freelance client project: a full-stack real estate platform enabling users to list properties for sale or rent directly, without brokers.
- Built an admin moderation system where new listings enter a pending review queue before going live, ensuring listing credibility and eliminating spam.
- Implemented advanced search and filtering by property type, price range, and region, plus an admin dashboard to track live inventory and archive sold properties.
- Deployed on **Vercel** using a serverless **Next.js** architecture with a **MongoDB** database.

Personal Portfolio Website

July 2025

Built with React.js, TypeScript, and Tailwind CSS

[GitHub](#) | [Live Demo](#)

- Designed and developed a fully responsive and modern personal portfolio to showcase projects, skills, and contact information.
- Utilized React.js for building a component-based architecture and smooth user interactions.
- Leveraged TypeScript to enforce type safety and enhance code reliability across all components.
- Styled the application with Tailwind CSS, achieving a clean, consistent, and responsive UI design.
- Included animated transitions, interactive sections, and a well-organized project gallery.
- Hosted the project online and version-controlled the codebase using Git and GitHub.

Leadership & Experience

Technical Co-Founder — Meem Langs (Mimeflow)

Nov 2025 – Present

AI-Powered Language Learning Platform

- Co-founded and contribute technically to building an AI-powered platform connecting AI tools with language learning.
- Helped shape the product's vision, structure, and long-term strategic direction.
- Organized and managed weekly sessions, workflows, and collaborative activities for the Meem English Community, the platform's core user base.
- Coordinated with team members to maintain engagement, streamline operations, and plan upcoming digital initiatives to expand reach and impact.

Education

Minya University

Bachelor of Arabic Language

Sep 2020 – Jun 2025

Minya, Egypt

CS50 – Harvard University (via edX)

Introduction to Computer Science

2024

Online

Technical Skills

Languages: HTML, CSS, JavaScript, TypeScript, Sass

Frontend Frameworks & Libraries: React.js, Next.js, Redux, Bootstrap, Tailwind CSS

Backend & Databases: Node.js, Express, Prisma ORM, MongoDB, Strapi

Authentication & APIs: Clerk Authentication, REST APIs, Axios, TanStack Query

Database Tools & Management: Prisma Studio, MongoDB Compass

Developer Tools & OS: VS Code, Git, GitHub, Linux (Ubuntu)

Soft Skills

Leadership & Collaboration: Guides small teams, organizes tasks, and works effectively within a team toward shared goals.

Problem Solving & Adaptability: Breaks down complex challenges into practical solutions and quickly adapts to new tools and frameworks.

Time Management & Consistency: Prioritizes tasks, meets deadlines, and maintains disciplined, reliable output over time.

Communication: Clear and professional in both technical and non-technical contexts.

Self-Learning: Continuously improves technical skills through independent study and hands-on projects.

Languages

Arabic: Native

English: B2 (Upper-Intermediate)
